

Personal Puzzle

Trace the template below onto a blank piece of paper (cardstock works best, but any paper would work). Draw your own picture on the paper, over the outline of the puzzle. Then, cut out along the lines, and you have your own personal puzzle!

If you want a challenge, try designing your own puzzle. Make a picture, and then on the back side, draw puzzle pieces (use pencil so you can erase it if you make a mistake). Then cut along the outlines of your pieces. You can choose what your puzzle pieces look like!
